

Clark Forklift Parts

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in commission in North America. Clark has five major lines of lift trucks across the world, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive brands of forklifts, with components covering more than 120,000 particular parts for all of its automated equipment. Your regional Clark Seller is your complete source for availability of all your components requirements provided by Clark Totalift.

Clark has a phenomenal Parts Supply team. The parts warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Worldwide, Clark has one of the most amazing supplier support networks. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing safety features such as the operator restraint system. This exceptional dedication to safety is currently a customary feature on every forklift.

Clark has a uncompromising objective to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental limitations, thus placing them in a prevailing market position.

Clark has selected the extremely economical and advantageous structure of "Lean Production" for its assembly plants and application of resources. This system was established to acknowledge the most efficient approaches of production plant stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to develop the efficiency and brilliance of their products while minimizing expenses. The new value engineering agenda combines innovative product development and offers improved client support and service within the industry.
